Carlinkit TBOX-Plus 8+128GB Apple Carplay/Android Auto wireless adapter

The Carlinkit TBOX PLUS adapter is an indispensable gadget for any driver who values comfort and modernity. Combining advanced technology and the convenience of wireless connectivity, this sleek black adapter is the key to taking full advantage of Apple Carplay and Android Auto systems in your car. It makes using your favorite apps, navigation or music not only easier, but also safer while driving. In addition, its versatility and ease of installation make it ideal for a wide range of vehicles.

Enhanced multimedia and navigation features

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Carlinkit TBOX PLUS adapter is not just a pass-through for using Apple Carplay and Android Auto without the need for cumbersome cables. Its built-in Android 13 system makes the device act as a standalone on-board computer. This allows users to download a wide range of apps - from those offering access to movies, series and advanced games to navigation apps. This makes even long trips more enjoyable and interesting.

Wireless control

The adapter's innovation is underscored by the ability to connect a wireless mouse or keyboard, making it even easier to navigate its functions and applications. This gives users a convenience of operation that standard in-car multimedia systems do not offer. In addition, the ability to control LED lighting allows users to personalize the appearance of the cockpit, adding a modern and unique touch.

High compatibility with operating systems

The Carlinkit TBOX PLUS adapter supports wireless CarPlay for iPhone 6 and later with iOS 10.0 and higher, and wireless Android Auto for devices with Android 11.0 and later. So regardless of your preferred operating system, you can enjoy smooth and stable connectivity to your car's multimedia system. This offers a wide range of accessibility, allowing you to use your smartphone's key functions right on the dashboard.

Advanced hardware and adaptive resolution

Equipped with a Qualcomm QCM6225 processor and Adreno™ 610 GPU, the adapter provides fast and smooth system performance. With ROM options of up to 128GB UFS and up to 8GB LPDDR4 RAM, the device guarantees high performance when managing applications and media. Adaptive resolution, preserving the original image quality, ensures excellent display quality, whether you are using navigation, watching videos or listening to music.

Easy installation and universal use

Installation of the Carlinkit TBOX PLUS adapter is extremely simple and requires no advanced technical knowledge. Compatibility with cars with factory wired CarPlay or Android Auto systems

makes the adapter suitable for use in a wide range of vehicles. This makes it ideal for those who want to upgrade their in-car multimedia systems without expensive modifications.

Multilingualism and support for various formats

The adapter supports multiple languages around the world, making it accessible to a wide range of users. As a result, no matter where you are from, you can easily configure and use the device in your native language. Support for a variety of formats and operating systems underscores the versatility of this gadget, allowing users to customize it according to individual needs and preferences.
