

ACT USB-C Video Capture Card, HDMI 4K@60Hz passthrough, 4K@30Hz capture

Model: AC7600

Manufacturer: ACT

EAN: 8716065549805

Product Code: 1675651

R3,028

DESCRIPTION

The AC7600 USB-C Video Capture Card is an essential tool for professionals, content creators and gamers who demand high-quality video performance. The video capture card is a versatile device designed to capture, view, record, and stream 4K video content with minimal latency from a source device such as a camera, laptop, or game console. The capture card works right out of the box on both Windows and MacOS computers without the need for drivers.

Capture

Connect your camera or game console directly to the AC7600 and capture at 4K@30Hz or 1080p@60Hz. Whether you're capturing a live event, live stream, webinar or gameplay, the capture card ensures that every detail is captured with precision.

Watch

Enjoy real-time monitoring of your 4K content with minimal latency. The AC7600 provides a smooth viewing experience, making it perfect for live production and instant content review. The HDMI output supports 4K@60Hz pass-through for viewing content on an external HDMI display.

Record

Save your 4K video directly to your computer. The AC7600 lets you create a high-quality archive of your footage, ready for editing or future viewing.

Stream

Broadcast your 4K content live on platforms like YouTube and Twitch. The AC7600 ensures a smooth streaming experience so you can share your content with the world without a hitch.

Plug and play convenience

Designed for ease of use, the AC7600 is instantly compatible with both Windows and MacOS computers and requires no additional drivers to operate. Its plug-and-play functionality means you can focus on creating and sharing your content without worrying about technical setup.
