ACT patch cables are fitted with full copper conductors and comply with the ANSI/TIA568-C2-1 performance requirements. The combination of a well structured copper data network, reliable active devices and copper patch cables ensure a trouble-free operating network which will be stable for a long period of time.

By applying materials that comply with international standards, your active network devices will be able to perform optimally, without failures. For PoE (Power over Ethernet) applications, it is important to use patch cables with full copper conductors. All ACT patch cables have full copper conductors.
