

ACT Dimmable clip-on laptop LED light bar, USB powered

Model: AC8050

Manufacturer: ACT

EAN: 8716065571615

Product Code: 1676620

R1,212

The ACT AC8050 clip-on laptop LED light bar is designed to provide comfortable lighting to your laptop, improving productivity and comfort while working in low-light environments. This USB-powered light bar offers three color settings: warm white (3000K), daylight (5000K), and cool daylight (6500K), allowing you to customize the lighting to your preference. The adjustable brightness ensures that you can set the perfect illumination level for your workspace.

Illuminate your keyboard

The AC8050 helps you to stay more focused while working on your laptop in a low-light setting, by providing a comfortable and adjustable lighting solution. The clip-on design makes the light bar easy to attach and detach.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Touch control

The touch button on the side of the bar lets you control the brightness and color temperature with only a light tap. Both the brightness and color temperature can be adjusted to your preferences. The light bar offers three color temperature levels: warm white (3000K), daylight (5000K) and cool daylight (6500K). To adjust the brightness, simply tap and hold the touch button.

Clip-on design with webcam cutout

Easily and securely attach the LED bar to your laptop using the integrated clamp. The clamp features protective non-slip pads and a cutout to keep the laptop's integrated webcam accessible.

USB powered

Power the AC8050 LED light bar with the included 120cm USB cable, for both USB Type-A and USB Type-C devices such as a laptop, USB charger or power bank.
