shared workspaces.

Key features:

- Eco-friendly:

The AC5146 is constructed using 85% recycled ABS plastic.

- Multi-connect:

Bluetooth: Connect the mouse up to two devices such as a laptop and a tablet. No dongle needed.

USB-A receiver: use the compact USB-A dongle when you prefer to connect the mouse via USB. The nano shaped dongle can be stored inside the mouse.

- Quiet operation:

Silent click technology: the AC5146 is equipped with silent click buttons. Unlike standard mice that tend to create audible clicking sounds, this mouse is designed to operate quietly with its silent click mechanism.

- Customizable precision:

Adjustable DPI: Match your accuracy and precision needs by choosing between 1000, 1600 and 2400 DPI.

- Ergonomic design:

Comfortable grip: The rubber surface and accessible side buttons ensure a comfortable grip.

- Intelligent power management:

Power-saving function: intelligent power-saving mode and on/off switch to prevent unnecessary battery drain when not in use. The mouse is ready to use right out of the box. One AA battery is included.

Made from recycled materials

At ACT, we care about the environment. That’s why we use recycled materials in our products. For example, the ABS plastic of this mouse is made from 85% recycled materials.

Connect via Bluetooth or use the mouse with a dongle

Easily connect your mouse to your device via Bluetooth. No receiver or dongle is needed. The AC5146 can be connected to two devices, such as a laptop and a tablet, using Bluetooth. Additionally, the AC5146 can also be used with the USB-A receiver. This dongle can be conveniently stored within the mouse when not in use.

Silent click

The silent click feature in the wireless mouse produces minimal noise. Unlike standard mice that tend to create audible clicking sounds, this mouse is designed to operate quietly with its silent click mechanism. This is ideal for environments where it's crucial to keep noise levels down, such as in offices, libraries, or shared workspaces.

Nano receiver: storable inside the mouse

The mouse comes with a USB-A nano dongle. The USB receiver stores conveniently inside the mouse when you are on the go or connected via Bluetooth.

Adjustable DPI for Precision

Select your preferred DPI accuracy and precision. Choose between 1000-1600-2400 DPI. This flexibility ensures you have the right level of precision for any task.

Intelligent Power-saving

The mouse features an intelligent power-saving function, and an on/off switch to extend battery life when the mouse is stored in your laptop bag and the buttons are accidentally touched. With one AA battery included, you're ready to go right out of the box.
