The hub itself is USB powered once connected to a laptop/computer and will provide enough power to support the connected peripherals such as a wireless mouse, keyboard, USB stick or SSD.

The hub has a built-in USB-C power port to connect an optional USB-C cable and charger to power connected devices that require additional power. You might need this if you want to connect a 2.5” HDD. Use a standard USB charger and connect a USB-C charging cable to the built-in USB-C power port. The USB charger and cable are not included.
