R1,915

EXPERT R782 Prisma for High Speed Grinding Stainless Steel

Grinding down welds on fabricated stainless steel workpieces is tough and time-consuming. If the process can be speeded-up, there is a significant efficiency gain for the skilled craftsmen who do this job. And with the EXPERT R782 Prisma Fibre Disc you can grind much, much faster.

The Bosch EXPERT R782 Prisma Fibre Disc for Inox allows you to grind stainless steel much faster than conventional discs, with no compromise on quality. It therefore offers a leap forward in productivity for professionals using angle grinders.
