

MikroTik QSFP28 100G direct attach cable 1m (XQ+DA0001)

Model: XQ+DA0001

Manufacturer: MIKROTIK

EAN: 9120117653607

Product Code: 1678011

R1,316

The **XQ+DA0001** is a high-performance cable from **MikroTik**, designed to meet the demanding needs of modern networking environments. This **1-meter** cable is specifically engineered for seamless connectivity between devices, ensuring optimal data transfer rates and reliability. With its robust construction, it is ideal for both enterprise and home network setups.

Featuring **QSFP+** to **QSFP+** / **QSFP28** to **QSFP28** connectors, the **XQ+DA0001** cable provides a versatile solution for high-speed data transmission. The **male-to-male** connector configuration ensures a secure and stable connection, minimizing the risk of signal loss. This makes it an excellent choice for data centers and high-performance computing applications.

As part of MikroTik's commitment to quality and performance, the **XQ+DA0001** is built to deliver exceptional results in various networking scenarios. Its compatibility with both **QSFP+** and **QSFP28** standards allows for flexibility in deployment, making it suitable for a wide range of networking equipment. This adaptability is crucial for businesses looking to future-proof their infrastructure.

In summary, the **XQ+DA0001** by **MikroTik** is a reliable and efficient choice for anyone seeking to enhance their network performance. With its impressive technical specifications and durable design, this cable is poised to support the increasing demands of data transmission in today's fast-paced digital landscape.
