Image Optimization Algorithms

Tapo advanced high-gained algorithms for higher clarity, brightness and saturation.

Vivid Colors, Vivid Details, even at Night

Tapo C325WB renders vivid colors even under ultra-low light conditions, while the smartphone can only make out darknessΔ. Experience its superiority with daylight clarity during pitch-black nights.

Razor-Sharp Images with Brighter Colors

Compared with other full-color cameras with spotlights/floodlights, Tapo C325WB reveals brighter, more natural colors and clearer images with ColorPro night vision and 2688×1520 resolution.

See Further, See More Colors

Compared with other full-color night vision cameras, Tapo C325WB won’t be limited to the range of spotlights or floodlights so you can see further and see more colors without dark corners.

Enhances Your AI Detection

Tapo C325WB can detect people, animals, and vehicles even during pitch-black night. No spotlights needed also means higher accuracy.

Less Missed Events

Detects people hidden in the dark by capturing more light and colors.

Less False Alarms

Reduces false alarms triggered by flying insects, shaking leaves, or flashing light.

A Whole New Night Vision Experience

Unlike other color night vision cameras that utilize spotlights or floodlights, the Tapo C325WB utilizes ColorPro technology paired with an incredible 2688x1520 resolution to deliver jaw-dropping results in low-light conditions.
Experience more natural colors, brighter images, and clearer pictures even in low light conditions.

Incredible Natural Colors in The Dark

Floodlights limit colors to a small section and IR sensors will only produce black and white images. With ColorPro, you can see picture that is closer to its natural color during the day.

Amazingly Detailed, Even in The Dark

Washed out or dull images prevent the visibility of finer details. With ColorPro, pictures are much clearer and more natural, providing better clarity.

No Dark Corners, No Blind Spots

See objects and subjects like never before. ColorPro technology provides superior brightness throughout the entire frame to ensure that nothing, or no one, is missed.

Extended Vision & Accurate Event Detection

Floodlight and even more advanced Starlight cameras may miss subjects in darker situations. With ColorPro technology, even subjects in the far corners of the frame can be detected.

Preserve The Dark,
No Spotlights or Floodlights Necessary

Save More Energy

The Tapo C325WB captures full-color images in ultra-low light conditions without requiring any floodlights to save energy and protect the environment. By choosing the ColorPro camera, you can enjoy high-quality monitoring while doing your part to protect the environment.

Minimize False Alarms

The Tapo C325WB is designed to minimize false alarms triggered by flying insects or shaking leaves attracted by spotlights or floodlights. You can have peace of mind knowing that you're getting accurate and reliable alerts without any unnecessary disruptions caused by false alarms.

Free from Distracting Lights

With the Tapo C325WB, you don't have to worry about distracting lights or light pollution that can disturb your peace or affect your neighbors. You can enjoy a clear view of your property without any extra light pollution and minimize neighbor complaints.

Built-In Siren with Spotlight Alarm

Customize the activity zone and trigger the built-in siren with the spotlight alarm to scare off unwanted intruders. Utilize the two-way audio to communicate directly with anyone standing outside.

HDR Technology (High Dynamic Range)

Experience uncompromised image quality, even in low light conditions, thanks to advanced HDR technology that ensures perfectly balanced exposure without any over or underexposure.

Experience Crystal Clear Vision: Day & Night

2K QHD Crystal-Clear

The Tapo C325WB delivers crystal-clear and highly-detailed images with a resolution of 2688×1520.

Free AI Detection
Smart AI identifies people, pets, and vehicles, notifying users as needed. All for free!

Weatherproof

Helps Tapo C325WB perform well even in harsh environments with rain and dust.

Wide Field of View

A wide FOV up to 127° provides a larger detection range covering more space.

Local & Cloud Storage

Save recorded videos to a microSD card (up to 512 GB) or by using Tapo Care cloud services.

Voice Activated

Works with Amazon Alexa and Google Assistant for hands-free life.

Dedicated Tapo App

Live view, playback, save clips and set up–all in one app.
Note: Tapo C325WB is not recommended for indoor settings. Turn off HDR for better night vision performance.
