D-Link 2 Megapixel H.265 Outdoor Bullet Camera

Model: BCB-P01

Manufacturer: D-LINK

EAN: 790069482205

Product Code: 1678379

R3,063

Clear High-Definition Video

Delivering crisp, high-definition video to ensure every frame is sharp, vivid, and reliable in any environment

Intelligent Video Analytics

Advanced video analytics reduce false alarms to deliver real-time precision and smarter, proactive monitoring

Simplified Cabling Installation

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

PoE enabling both power and data transmission through a single cable, reducing installation complexity and cost

3D NR (Noise Reduction)

Enables cleaner, high-fidelity video by eliminating digital noise in challenging low-light environments

Digital Wide Dynamic Range

Precisely capture objects in challenging environments, ensuring optimal visibility in both bright highlights and deep shadows

IP66 Weather-Proof

IP66-rated weatherproofing guarantees durability against dust and water jets, even in the harshest outdoor conditions

See Everything, Miss Nothing

Experience every detail in stunning high definition. Engineered for professional-grade clarity, the BCB-P01 delivers a crisp, consistent view of your business premises around the clock. By capturing high-fidelity footage that reveals critical evidence when it matters most, the BCB-P01 ensures your operations are protected with absolute visual integrity.

Single-Cable Integration

Streamline the setup with PoE. By integrating power and data into a single cable, the BCB-P01 eliminates cable clutter and significantly reduces the infrastructure costs and labor time required for traditional power configurations.

Smart Event Detection

Transform your surveillance from passive recording to proactive protection.The BCB-P01 features built-in Intelligent Video Analytics that go beyond simple motion detection, identifying specific

events and behaviors in real-time. By filtering out environmental noise, it delivers the precise insights needed to enhance site safety and operational efficiency.

Motion Detection

Detects motion events by analyzing changes in the video scene and triggers alarms when movement is identified.

Person Detection

Automatically identify and classify human objects within the video stream with high precision.

Vehicle Detection

Detects and classifies vehicles, including cars and motorcycles, within the monitored area.

Sound Detection

Triggers instant alerts when ambient sound levels exceed your customized decibel threshold.

Line-Crossing Detection

Triggers instant alerts when subjects cross a customizable virtual line, securing restricted areas with precision.

People Counting

Counts the number of people entering and exiting a defined area based on video analytics.

Wrong-Way Detection

Detects objects moving in a direction opposite to the predefined allowed direction and triggers an alert.

Illegal Parking Detection

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Triggers an alarm when a vehicle remains stationary beyond the configured parking duration.

3D NR (Noise Reduction)

Eliminate visual static and motion blur. 3D NR intelligently filters grain in poor lighting conditions, delivering the high-fidelity detail required for reliable monitoring and evidence gathering.
