

Conceptronic DONN36B Dual-bay RGB Hard Drive Docking Station, for 2.5/3.5-Inch HDD SSD, 2 x USB A, SD/TF Card Reader, UASP

Model: DONN36B

Manufacturer: CONCEPTRONIC

EAN: 4015867244623

Product Code: 1678661

R1,791

The Dual-bay RGB Hard Drive Docking Station is designed to deliver high-speed data access, flexible storage expansion, and a visually dynamic desktop experience. Supporting both 2.5" and 3.5" SATA HDDs and SSDs, it allows you to easily manage, transfer, and back up large volumes of data with ease.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Equipped with a high-speed USB 3.2 Gen 1 interface, the docking station provides reliable data transfer rates of up to 5Gbps, ensuring efficient performance for everyday workflows. Each bay supports drives up to 20TB, offering a total capacity of up to 40TB, making it an ideal solution for professionals handling large files, backups, or media libraries.

The built-in one-key offline cloning function enables quick and convenient disk duplication without the need for a computer, streamlining backup and upgrade processes. Its integrated SD and TF card slots, along with two USB-A ports, further enhance connectivity by allowing easy access to memory cards and additional USB devices.

Designed for both functionality and style, the docking station features dynamic RGB lighting with on/off control, adding a modern touch to any workspace. The tool-free design ensures effortless drive installation, while LED indicators provide clear status updates for power and drive activity. Combining performance, convenience, and visual appeal, this docking station is a versatile solution for both professional and home use.
