Model: EO0019-1

Manufacturer: LOGILINK

EAN: 4052792055498

Product Code: 1678795

R1,438

Product information "Slatwall panel" from LogiLink

The organization panel EO0019-1 from LogiLink, also called "Slatwall", offers you the possibility to free your workplace from documents, pens and files and still keep them within reach. Simply place the desired elements such as shelves, monitor holders or pen holders on the rail, select the suitable attachment for wall or table mounting and fix it accordingly. In this way, you only keep the necessary things on the desk itself and gain more space for the really important things! The fastening lamellas can be found on both sides of the rail, so you can assemble and use the slatwall panel individually from both sides like for a double table.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
