Be heard with the voice focus detachable boom mic

Echo-cancelling technology makes sure you're heard loud and clear when rallying the troops or opponents. The voice focus boom mic is adjustable and detachable for gaming on the go or when using a peripheral microphone. Press the mute button built into the ear cup to automatically go dark.

DISCORD Certified game audio-chat balance dial

DISCORD-certified Game-Chat balance dial lets you adjust audio levels on the fly. Separate sound cards handle game and chat audio, allowing you to set the proper balance on the headset without having to leave the game. Also compatible with TeamSpeak, Skype, and other services.

Powerful JBL QuantumENGINE PC software suite customization

The powerful PC software, the JBL QuantumENGINE, allows you to manage and personalize your JBL Quantum ONE gaming headset from a user-friendly dashboard and included calibration mic. Create separate user profiles, modify microphone settings, and activate RGB effects or create your own. You can also adjust the equalizer or choose from 6 presets. The JBL QuantumENGINE powers the JBL QuantumSPHERE 360 immersive surround only on your PC.

– Spatial sound
Choose your sound setting and provide your head diameter and height to adjust the surround sound profile to fit for your ears. Using the calibration mic, the JBL QuantumSPHERE 360™ allows for the most accurate and immersive spatial sound experience.

Audio equalizer for custom sound
Create profiles that enhance the soundscape of specific games or choose from a variety of expertly crafted presets.

– RGB effects tuner

Create your own lighting effects with the built-in RGB effects tuner or choose from several preset modes that highlight the headset’s capabilities.
