

LogiLink PA0368 mobile device charger Universal White AC Fast charging Indoor

Model: PA0368

Manufacturer: LOGILINK

EAN: 4052792078169

Product Code: 1679737

R1,008

The LogiLink USB-C GaN 65W Charger is an ultra-slim charger that has been specially developed for tight spaces. Thanks to the innovative GaN technology, it is physically smaller and dissipates higher voltages than silicon-based chargers, with better heat dissipation. At just 1.4 cm thick, it is ideal for travelling and narrow sockets.

The charger offers a maximum total output power of 65 W. It has a USB-C port with Power Delivery (PD) 65 W and a USB-A port with Quick Charge (QC) 4.0. You can quickly charge a USB-A and a USB-C device at the same time. Wide compatibility including laptops, smartphones, tablets and more. Enhanced safety features such as over-current, over-voltage, over-temperature and short-circuit protection ensure extremely safe charging.
