Sitting or standing with bad posture all day using a computer is bad for your health. Leaning forwards or tilting your head up or down not only causes back and neck strain but is also bad for your eyes. The Fellowes Seasa dual monitor mount will improve your ergonomic posture and reduce back neck and eye strain. Dual screen working means you can view more screen content and can use multiple programs simultaneously. With ever shrinking office spaces, using a dual monitor stand means you can free up valuable work space to become more organised and productive. With effortless adjustment you can collaborate and share information with colleagues easily, making them perfect for hot desks or shared desks. The Fellowes double monitor stand is ideal for any workspace, with its stylish, convenient design. This fully independent adjustable dual monitor arm by Fellowes can pan 120°, tilt +/-45° and can rotate 360° for optimum viewing control. Intuitive cable management system and low profile base helps you minimise clutter with the Fellowes Seasa dual monitor arm. It's free standing ability enables dual monitors to be used in spaces that do not allow a clamp or grommet mount - each arm can hold up to 8KG monitors with a maximum screen size of 27"/68.58cm and meets VESA monitor bracket standards.
