Sleek, clean look and Acrylic side panel

Elegant designed ATX mid-tower PC case that wins over it’s crystal clear design. Combined with plenty of space it becomes the perfect match for gamers and all kinds of hardware-enthusiasts.

Apart from its simple look, the FSP CMT151 is equipped with an acrylic window side panel that allows you to properly showcase your gaming rig‘s installed hardware.

Optimize your Airflow

The CMT151 comes with a pre-installed 120mm fan at the rear and allows you to mount up to five additional fans for a maximum cooling performance.

Detail makes perfection, high quality PC case feet prevent a PC from vibration and provide optimal airflow.
