R6,935

The Tornado TCM-5431-GS is a true home barista machine, engineered for coffee lovers who crave control, quality, and customization. With a 20-bar Italian pump and dual boiler system, it delivers fast heat-up and precise espresso extraction for bold, flavorful results.

An integrated conical burr grinder with 30 adjustable grind settings ensures beans are freshly ground to your exact preference, while rotary knobs offer intuitive control over brewing and steaming. The generous 2.3 L water tank minimizes the need for refilling, perfect for multiple drinks or guests.

Create creamy cappuccinos and silky lattes using the professional steam wand, and enjoy the convenience of the active cup warmer for optimal serving temperature.

Housed in a durable black ABS body with stainless steel elements, the TCM-5431-GS combines professional-grade performance with compact countertop style. Ideal for passionate espresso drinkers who want barista-quality coffee at home.
