CW Yeelight Meteor C500 smart ceiling lamp

The CW Yeelight Meteor C500 Smart Ceiling Lamp offers an impressive 36W of illumination, infinitely adjustable color temperature and brightness, allowing you to fully customize the light to your needs. It seamlessly integrates with voice assistants, offering remote control via simple commands as well as through an app, and the separately available SLISAON® switch and remote control will open up even more possibilities for you. With faithful color reproduction, no flicker effect and Moonlight mode, it provides eye comfort and soft night lighting. The simple, installation-friendly design makes installation quick and hassle-free.

Smart lighting for your home

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Yeelight ceiling lamp combines minimalist design with advanced technology. With an ultra-thin design of about 2.8 cm thick, it fits perfectly on the ceiling without taking up valuable space. Its power rating is 36 W, and optimal light coverage covers rooms up to 26 m². Meteor C500 will make every room in your house surrounded by a pleasant, homely atmosphere.

Infinitely adjustable color and brightness

The color temperature range of 3000 K to 6500 K allows you to adjust the light to suit any situation - from a warm, relaxing glow to cool, stimulating illumination. Infinite dimming from 0-100% gives you full control over the intensity, so you can easily create the right mood. Whether you're partying, enjoying a romantic evening with a loved one, or reading an evening read, Yeelight will adapt to your needs.

Full integration with your smart home

Yeelight Meteor C500 works seamlessly with voice assistants such as Google Home, Amazon Alexa, SmartThings and Xiaomi Home. You can control the lights by voice, remotely via the app, and with a SLISAON® switch or remote control (available for separate purchase). Integration with the IoT ecosystem (Internet of Things, a system that allows various electronic devices to send and receive data - to and from other things and systems), allows you to create scenarios and automations tailored to your lifestyle.

Eye comfort and night mode

Steady light technology with faithful color reproduction, as well as no flicker effect, in accordance with IEEE standards (Institute of Electrical and Electronics Engineers - an organization of engineers and scientists who create and approve hardware standards), protect your eyesight even during prolonged work. Moonlight mode provides soft, pleasant illumination ideal for relaxing at night or getting up discreetly at night.

Easy installation and convenient use

The lamp has been designed with easy installation in mind - the installation is quick and user-friendly even for those without specialized knowledge or experience. It is an excellent choice for anyone who
