Moza Racing HGP Shifter

Model: RS039

Manufacturer: MOZA RACING

EAN: 6973137270476

Product Code: 1682961

R5,011

Full Metal Construction

The MOZA HGP Shifter is CNC machined from anodized aviation-grade aluminum. It is solid, sturdy, and reliable.

Intelligent Downshift Throttle Blip System

Featuring automatic downshift throttle blipping, MOZA RACING's patented intelligent downshift system eliminates the need for heel and toe shift expertise. It is fully selectable and customizable in the MOZA Pit House and significantly improves vehicle balance and smoothness when downshifting.

15-bit High Precision Angle Sensor

The MOZA HGP shifter utilizes a 15-bit non-contact high precision angle sensor, ensuring positive and precise shifting and a long maintenance-free life.

H Pattern with Locked R and 7th Gear

Requiring downward pressure to engage, both reverse and 7th gear are locked to prevent accidental selection.

Realistic Feeling

The patented shifting mechanism includes a shock-absorbing damping system. Engineered to make every gear shift a positive, smooth, and satisfying experience.

Replaceable Shift Knobs

Modify your shift lever with aftermarket knobs.

Easy to Mount

The MOZA HGP Shifter is both ergonomically and beautifully engineered and is easily mounted on most racing rigs. For desk users, there is also a dedicated desk clamp available separately.

Direct Connection to the PC or Wheelbase

The MOZA HGP Shifter can be connected directly to a pc via a USB cable or to a wheelbase with a compatible shifter port.

Patented Dust-proof Cover

Inspired by real-life cars, the patented funnel-shaped dust cover is used to prevent dust from entering the shifter’s internal mechanism whilst maintaining a sleek and clean look.
