The Picture-by-Picture (PBP) feature allows you to show multi content in one single display. It is very useful and convenient to deliver various advertisements or pieces of information at the same time.

Portrait/Landscape Mode

BH7N can be used vertically as well, allowing for flexible utilization in various installation/usage scenes in both horizontal and vertical orientations. It can be utilized for displays according to the characteristics and size of unused and leftover spaces.

Customizable Angle to Suit Customer's Eye Level

With a tilting capability of 30° when installed at a higher height, BH7N enhances customer perception and satisfaction.

Indoor Display Offering a Vivid and Sharp Visual Experience

With a great brightness of 700 cd/m2, the BH7N series clearly deliver content and attract public attention, making it suitable display for marketing in airports, retail, shopping malls etc.

Daisy Chain Management

A daisy chain allows you to conveniently and efficiently play the same content on multiple displays using just one media player. This eliminates the need to install separate media boxes for each display, as the entire operation can be handled by a single media player, ultimately resulting in cost savings during installation.

High Performance with LG webOS 6.0

LG webOS 6.0 is available on BH7N series for a smooth execution of several tasks. LG webOS smart signage platform enhances user convenience with intuitive GUI.

Real-Time Monitoring
with LG ConnectedCare
Easy and Fast maintenance are available with our optional cloud service solution LG ConnectedCare*. It remotely manages the status of displays in client workplaces for fault diagnosis
