Its tough semi-friable aluminium oxide abrasive grain provides high-performance sanding. In addition, the backing material is made of robust x-cloth with a high-quality belt joint for strength in extensive work. Furthermore, its grit features an electrostatic open-coated surface, providing consistent dust removal for continuous sanding. This product is intended for the sanding wooden and coated surfaces, and is suitable for smoothing out feather edges. It is also ideal for flush sanding rebates and edges. The X440 Best for Wood and Paint sanding belt is compatible with belt sanders. The grit is bonded using fully synthetic resin for wear resistance in heavy-duty applications.
