UNITEK C14158ABK01-3M USB-C Cable Charging with LED Display 3m black

Model: C14158ABK01-3M

Manufacturer: UNITEK

EAN: 4894160058928

Product Code: 1684581

R680

Unitek USB-C cable is designed to keep devices powered and connected with dependable performance for everyday use. The cable supports USB Power Delivery for up to 60 W charging at 20 V and 3 A, helping charge laptops, tablets, and phones more quickly while built-in protections guard against overcurrent, overheating, and overvoltage. A braided TPE and nylon jacket with reinforced connectors makes the cable wear-resistant and easy to handle, while an LED display and e-marker chip provide clear status feedback and ensure safe, compatible operation. The cable also supports data transfer rates up to 480 Mbps, making it suitable for syncing files and connecting peripherals alongside charging.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
