Hikvision DS-2CD2543G2-IS(2.8mm) 4 MP AcuSense Built-in Mic Fixed Mini Dome Network Camera

Model: DS-2CD2543G2-IS(2.8mm)

Manufacturer: HIKVISION

EAN: 6931847136222

Product Code: 1685208

R4,914

Equipped with a 4-megapixel high-resolution sensor, this fixed mini dome network camera delivers clear and detailed images, ensuring effective surveillance and security. The device features AcuSense technology, which enhances its ability to accurately distinguish between human figures and vehicles from other moving objects, minimizing false alarms and focusing attention on real threats.

The camera includes a built-in microphone that captures audio within its vicinity, adding an additional layer of information to the visual feed. With a lens focal length of 2.8mm, it provides a wide-angle view, making it suitable for covering expansive areas without the need for multiple

cameras.

Designed for durability, the camera is housed in a robust casing that is resistant to water and dust, adhering to IP67 standards. It also supports H.265+ video compression, which reduces bandwidth and storage requirements while maintaining high-quality video output. The device can be used in a variety of settings, including outdoor and indoor environments, making it a versatile choice for enhancing security measures.
