Braun Silk-expert Mini

Fast, easy and gentle IPL for visible permanent hair removal[1] at home.

SkinPro (SensoAdapt™) technology[2]

Skin tone varies across the body, so the SkinPro (SensoAdapt™) sensor (with UV protection) continuously reads your skin and adapts the flashes to your different body areas.

Adapts treatment to all body areas

Accurate and thorough on every area of your body. Treat narrower areas like your face, armpits and bikini, or larger body areas such as the legs.

Powerful and gentle

Gentle and powerful permanent visible hair removal from the comfort of your home. This IPL continuously reads your skin tone and automatically adjusts the intensity level to ensure the perfect balance between gentleness and efficacy.

Visible results in 3 months[1]

Clinically tested for visible hair reduction in just 3 months[1]. The power of IPL.

Find out if IPL is right for you

Braun IPL is suitable for a wide range of skin tones from light to medium dark skin tones, with hair ranging from natural blonde to dark brown or black. IPL technology is least suitable on very blonde, red, grey or white hair where there is less melanin to absorb the light.

3 levels of intensity

The IPL’s 3 levels of intensity ensure the light intensity best suits your skin tone. This gives you the perfect balance of power for long-lasting results at home.

Flashes every 0.6 seconds

The IPL releases continuous high-speed flashes allowing for effortless gliding & fewer missed spots. The glide mode is recommended when treating larger areas like legs.

Hair reduction with staying power
