Human & Vehicle Classification

Integrated AI chips support advanced algorithms to distinguish humans and vehicles from other objects. You can flexibly customize alarm rules to match your monitoring needs and receive more accurate event notifications.

We keep an eye on your business.

Smart Detection

Backed by AI algorithms, the VIGI camera offers more smart detection. You will receive notifications when someone crosses a boundary, enters an area you've set, obstructs the camera, or removes/abandons objects.

No more silent surveillance.

Built-In Microphone

The VIGI camera features a built-in microphone to record anything going on within a 15-ft radius of the camera. This gives you more detailed monitoring for greater peace of mind.

Never miss a detail.

SmartVid-Smart Video Enhancement

VIGI’s professional technologies process videos to greatly improve their quality that is vital to your monitoring, including Smart IR, WDR, 3D DNR, and Night Vision.

More compression. More savings. Same quality.

Without using any extra bandwidth, your cameras transmit compressed crystal-clear video to save disk space, ease network loads, and reduce monitoring costs without sacrificing image quality.

Plug & Play with One Cable

Enjoy simple wiring with PoE connections. Connect your camera with an RJ45 cable, then your power supply and data transmission are all settled.

Flexible Management

Take full control over your security via four management methods: the web UI, NVR UI, VIGI app, and VIGI Security Manager.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Flexible Installation Gives You More Convenience.

Easily route your camera’s cable into a dropped ceiling or avoid drilling by slotting it through the camera’s side outlet.

One system. Full security.

Run your business with peace of mind.

The VIGI professional surveillance system by TP-Link is dedicated to protecting the business you’ve worked hard to build — whenever, wherever. Our outstanding functions, reliable quality guarantees, and simplified installation work together to ensure your business stays safe and sound.
