

Ricoh Meeting 360 V2 - Konferenzkamera - Schwenken (432687)

Model: 432687

Manufacturer: RICOH

EAN: 4961311987144

Product Code: 1686629

R20,990

The RICOH 360 Meeting Hub is a 3-in-1 video camera, speaker and microphone that connects all participants and turns a meeting into an experience. Thanks to the device's 360-degree panoramic view and voice recording, which can capture conversations from up to 6 metres away, participants feel like they are in the same place. Two devices can be linked together for larger meetings. Acoustic echo cancellation and noise suppression ensure that all participants can be heard clearly - even in locations with background noise. Without good sound and a crystal-clear view, it is difficult to hold a good meeting. That's why the 360 Meeting Hub has an integrated high-performance audio function that delivers high sound quality speaker sound and an automatic image adjustment function that

displays all participants with high clarity and contrast and is also equipped with an anti-flicker function. Thanks to its lightweight, ergonomic design, it is easy to set up on any flat surface - ideal for meetings in the office. It can also be mounted on a stand to hold stand-up meetings on the factory floor or at an event. With the RICOH 360 Meeting Hub, remote meetings don't feel like remote meetings, everyone feels like they're in the same place. Set-up and operation are stress-free and seamless - intuitive plug-and-play functionality is a must.
