The LevelOne FSW-0808 is a wire-speed, non-blocking networking device that provides 8 ports 10/100Mbps Ethernet connections. All ports support auto-negotiation and auto-MDI/MDIX sensing, eliminating the need for crossover cables or Uplink Ports. Each port can be used as general network port or as connecting port into a router, server, hub or another network switch.

Easy Configuration and Maintenance

The LevelOne FSW-0808TX does not require software configuration. Users can immediately use any features of this product simply by attaching the cables and turning on the power. For instant error detection, the switch is equipped with a full range of LEDs to help you monitor and troubleshoot problems on your network.
