FSP Hydro Ti PRO 1000W Power supply unit ATX ATX3.1 Black

Model: PPA10A3807

Manufacturer: FSP

EAN: 4713224527456

Product Code: 1687770

R4,981

New ATX PSU Specifications

Updated ATX 3.0 specifications for the next-generation hardware power demands and ensure users get the most stable and cost-optimized performance possible with the highest power efficiency.

Ultra Power Density

Compared to general high-efficiency & high wattage PSU 170mm length, Hydro Ti PRO series delivers high power with shorter size of 150mm.

80 Plus® Titanium Certification

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Hydro Ti PRO series is a power supply with 80 PLUS® Titanium provides over 94% efficiency at the load of 50 % and Cybenetics-certified for lower power consumption.

Lambda A++ Certification

Hydro Ti PRO ATX3.0(PCIe5.0) 1000W got Lambda A++ noise rating. By averaging the noise measurements that take from Cybenetics test results.

Smarter, Quieter and Longer Lasting Eco Friendly Fan

Under 50% loading, you will enjoy Zero RPM experience when eco semi-fanless fan control switch is on, , and get the benefit of long lifespan from a 135mm fluid dynamic bearing fan.

Off-Wet, Off-Dust and Off-Stain Coating

Covered with exclusive conformal coating which guarantees to offer better and reliable performance in harsh environments and is tested to work in environments up to 95% relative humidity.

LLC Topology

Zero voltage switching of the main switches thereby dramatically lowering switching losses and boosting efficiency.
450V, 105°C Japanese E-Capacitors
Hydro Ti PRO series uses Japanese bulk capacitors to ensure a longer lifetime and protect your equipment from the infamous capacitor leakage problem.

Unleash +12V Power Output

VGA card is a power-hungry component that needs most power. A single +12V rail design can deliver stable power and avoid any overloading conditions.

Fully Modular Design

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
