

BenQ LH660 Standard throw projector 4600 ANSI lumens DLP 1080p (1920x1080) 3D White

Model: 9H.JTN77.14E

Manufacturer: BENQ

EAN: 4718755097119

Product Code: 1688088

R23,115

BenQ Business Projector

LH660 | 4600AL 1080P Laser Projector with RJ45 Bult-in, 1.3x Big Zoom

Always Connected, Always Up to Date

Direct Connection to BenQ QOTA Cloud

The enhanced RJ45 LAN port enabling seamless connection to the BenQ QOTA cloud. You can receive and install firmware updates directly from the projector without using a PC or USB drive.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Convenient Firmware Updates

Support on-device firmware update

Easy LAN Integration

Built-in RJ45 port with support for real-time firmware updates

Flexible Wireless LAN

Optional 5201BS dongle enables Wi-Fi connectivity via the built-in RJ45 interface

Seamless System Compatibility

Support AMX and PJ-Link platforms, ensuring seamless Integration with established room controllers.

One Platform, Total Control

Manage Every BenQ Device with BenQ DMS

Monitor and manage all your BenQ devices through the BenQ Device Management System (DMS) software from your administration computer over your company LAN (DMS Local) — and stay connected even outside the office with the DMS App (DMS Cloud *). Gain complete visibility, centralized control, and seamless access from anywhere.

DMS Local

The IT Staff use a computer connected to the company LAN to control and manage all projectors directly within the office network.

DMS Cloud

By activating Agent Mode* in the DMS software, the local DMS system syncs with the DMS Cloud.

(*In the future, projectors will be able to connect directly to the cloud without needing an Agent computer. This will enable real-time projector status updates. Stay tuned.)

Total Command

Manage all devices from one dashboard

Actionable Analytics

Monitor BenQ Devices status and performance data to make smarter decisions

Fast Setup

Onboard every BenQ device quickly before your meeting starts

Casting Your Screen Wirelessly

Enjoy driver-free wireless casting with seamless support for iOS, Android, and Windows. Display up to Four devices at once with 4-way split screen for effortless collaboration.

BYOD

Supports iOS, Android & Windows. Easy casting across devices

4-Way Split Screen

Display up to four devices simultaneously

Displayed exactly as intended

Selecting the right color mode ensures crisper, clearer images compared to a single default mode.

Presentation Mode

Optimized saturation for clear communication in slides, reports, and meeting content.

Video Conference Mode

Natural skin tones for a more professional look on camera.

High Detail Mode

Sharper contrast for diagrams, code, and blueprints.

DICOM Simulation Mode

Medical-grade accuracy when displaying digital images, with no loss of detail.

*DICOM Simulation mode is intended for training purposes only and not for medical diagnostic use.

High Reliability, Easy Maintenance

Laser Phosphor delivers up to 30,000 hours of reliable brightness with no lamp replacement. Durable, efficient, and mercury-free for a more eco-friendly workplace.

Lower Total Cost Ownership

Long-lasting brightness with lower power consumption helps reduce operating and maintenance costs.

Eco-Friendly & Mercury-Free

Mercury-free laser light source for a cleaner, more environmentally friendly design.

IP6X Dustproof Engine

Sealed optical engine prevents dust intrusion, maintaining image quality and extending lifespan.

Projection Fits for Every Room

Project images larger than 100” from just 2 m~3 m away (via 1.3X zoom), enabling easy big-screen viewing in rooms of any size.

Flexible Installation & Connectivity

Experience seamless connectivity with our LH660 projector featuring two HDMI ports and two USB ports. It supports external Wi-Fi Screen Casting (e.g. QP30) and Wi-Fi RJ45 adapters (e.g. 5201BS).

RJ45 (LAN)

Network control for DMS management & OTA updates.
