DDPAI MINI Pro 2K Dash Cam

Model: MINI Pro 2K

Manufacturer: DDPAI

EAN: 6934915206834

Product Code: 1688122

R1,649

DDPAI MINI Pro 2K Dash Cam

The DDPAI MINI Pro 2K dash cam records video in 2K resolution (2560 × 1440), allowing you to accurately document your journey and situations on the road. The F2.0 lens with a 121° field of view captures a wide area in front of the vehicle, while support for MicroSD cards with capacities up to 256 GB provides ample storage for recorded footage. The model also features 2.4 GHz Wi-Fi, a USB Type-C power connector, and a supercapacitor, and its wide operating temperature range of -20°C to 70°C allows the device to be used in a variety of weather conditions.

2K High-Definition Recording

The DDPAI MINI Pro 2K records video at a resolution of 2560 × 1440 pixels, providing detailed footage of your drive. The clear image makes it easier to analyze the recorded situation later and identify important details within the frame. High resolution is useful for both daily commutes and longer trips.

F2.0 Lens and 121° Field of View

The F2.0 lens offers a 121° field of view, allowing the dashcam to capture a wide area in front of the car. This allows the camera to capture the road and its immediate surroundings, providing a broader view of the event. The lens specifications were selected with the goal of effectively documenting everyday traffic situations.

2.4 GHz Wi-Fi Connectivity

The built-in 2.4 GHz Wi-Fi module enables wireless communication between the dashcam and a compatible mobile device. This allows the user to take advantage of wireless communication without having to physically connect the devices with a cable. Detailed connection instructions and available mobile features depend on the software provided by the manufacturer.

Supercapacitor – a solution designed for in-vehicle use

The DDPAI MINI Pro 2K uses a supercapacitor, which, compared to traditional lithium-ion batteries, better withstands high temperatures and a large number of charge and discharge cycles. This solution ensures the durability and stable operation of the dashcam in the demanding conditions inside a vehicle. The model can operate at temperatures ranging from -20°C to 70°C and is powered via a USB Type-C connector with 5 V / 2 A specifications.

Manufacturer	DDPAI
Model	MINI Pro 2K
Resolution	2K (2560 × 1440)
Lens	F2.0
Field of View	121°
Wi-Fi	2.4 GHz
Supported Memory Card	MicroSD up to 256 GB
Power Interface	USB Type-C
Power Supply	5 V / 2 A
