### BoboVR BM60-1 VR Battery and Docking Station Kit

Long VR sessions can be completely immersive, so it’s worth investing in a solution that lets you enjoy your entertainment without unnecessary interruptions. The BoboVR BM60-1 kit combines a high-capacity battery, a comfortable head strap, and a practical docking station, making your VR headset experience even more comfortable. The intuitive charging system ensures the battery is always ready for use, and clear indicators let you easily monitor its status. All of this translates to greater freedom while gaming, watching movies, and exploring virtual worlds.

### Extra battery life always at your fingertips

At the heart of the set is the BM60 battery with a capacity of 6,500 mAh and a voltage of 3.6 V, which extends the VR headset’s runtime by up to approximately two additional hours. A maximum

output power of 20 W ensures a stable power supply even during more demanding sessions, while a maximum input power of 18 W enables fast recharging. It takes only about two hours to fully charge the battery, so the device is quickly ready for use again.

## Convenient charging and full operational readiness

Once your gaming session is over, simply place the battery in the docking station to prepare it for your next session. This solution prevents tangled cables and keeps all components of the set organized and easily accessible. The DM1 dock’s thoughtful design not only makes charging easier but also allows you to conveniently monitor the battery’s status, so you always know when the device is ready to go.

## Comfort Designed with VR in Mind

The set also includes the M3 Pro+ battery strap and the M3 head strap, which enhance the comfort of wearing the headset during longer sessions. The well-balanced design ensures a comfortable fit and allows you to fully focus on the game. The combination of an additional power source, a functional docking station, and ergonomic accessories makes the BoboVR BM60-1 a practical addition to any virtual reality enthusiast’s gear.
