The ProArt B850-Creator WiFi Neo is designed to empower creators at every level, delivering optimized performance for the latest AMD Ryzen™ 9000, 8000, and 7000 Series processors, as well as AMD EPYC™ 4005 Series CPUs. Featuring a robust 14+2+1 power stage design, DDR5 support, PCIe® 5.0 expansion, and ultrafast connectivity—including dual 5G Ethernet and WiFi 7—it provides a reliable foundation for demanding creative workloads.

With a refined aesthetic that reflects a professional and elegant design philosophy, the motherboard showcases layered black tones accented with metallic gold details. This platform seamlessly combines performance, connectivity, and design, delivering the power required for today's advanced AI PC applications.
