

ACT Powercord C19 IEC Lock - C20 IEC Lock Dual Locking red 3 m, PC3641

Model: PL0023

Manufacturer: ACT

EAN: 8716065552843

Product Code: 1688504

R1,280

DESCRIPTION

The ACT IEC Dual Lock power cable offers locking at both ends: C19 IEC Lock on one side and the C20 IEC Lock Dual Locking connector on the PDU side. The C20 connector locks at the top and side, providing additional protection against accidental disconnection from the PDU. The locking mechanism is universal and works with all major PDU brands. The PDU doesn’t need to have its own locking mechanism and no tools are required. The IEC Lock prevents accidental disconnection/release of the cable from both the equipment and the PDU. This minimizes the risk of damage and downtime. The power cables are available in a range of colors for easy identification. The ACT IEC Lock can be used in Europe, Australia (16A/250V~), USA, Canada and Japan (20A/120V~).
