R1,336

Meet a soundbar that you can easily place on your desk. Behold the GENESIS Helium 312 BT - a speaker created for gamers expecting good sound in a small form factor and efficient music playback from various devices thanks to BT 5.2. And that's not all it will surprise you with. Control the bass and backlighting with one click and transform your stand.

FROM A COMPUTER OR SMARTPHONE

Want to play music from multiple devices, all without having to rewire them? Nothing difficult. All you have to do is power up the GENESIS Helium 312 BT by connecting it to your computer using USB Type A and start using it. And if you want to play a recording from any BT-enabled device, you will do it in just a few seconds by pairing the equipment with the soundbar.

CONTROL AT YOUR FINGERTIPS

Easy use of additional functions is a big advantage of the GENESIS Helium 312 BT. With the touch-sensitive buttons, you can easily adjust the amount of bass and even change the backlight to any of the 12 modes. You'll also appreciate the ability to instantly adjust the volume using the dedicated knob. Simple and convenient.

CHANGE YOUR POSITION

Stylish and functional. With GENESIS Helium 312 BT you will not only immerse yourself in your favorite music, but also embellish your stand. Thanks to its classic color scheme and casing, you can easily blend it into a less, as well as more gaming atmosphere. The RGB backlighting will also allow you to do so, which you can easily turn off if you wish.
