R1,655

The Impakt Fury SHOBO SH8F ARGB is a midi-tower system cabinet designed for both functionality and aesthetics. Featuring a sleek windowed side panel made of tempered glass, this case showcases the interior components, allowing users to display their builds in style. With ample space for CPU coolers up to 161 mm in height and graphics cards with a maximum length of 330 mm, the SHOBO SH8F accommodates powerful components for any gaming or workstation setup.
Equipped with cooling capabilities, this chassis comes with three 120/140 mm fans located at the front and one 120 mm fan at the rear, reaching a maximum rotation speed of 1500 rpm. The airflow is rated at 49.6 cfm, ensuring that internal components stay cool, even during intense workloads. Additionally, the cabinet features anti-dust filters and a meshed front panel, promoting better ventilation and dust control, while also supporting up to a 360 mm radiator in the front and a 240 mm radiator on the top. With multiple expansion bays and connections, the Impakt Fury SHOBO SH8F ARGB is versatile, making it a choice for any PC builder.
