

i-tec USB-C Metal Nano 3x Display (DP, HDMI and VGA) Docking Station + Power Delivery 100 W

Model: C31NANOTRIDOCKPD

Manufacturer: I-TEC

EAN: 8595611707865

Product Code: 1689367

R1,950

A compact yet powerful USB-C docking station that expands your laptop or tablet with a wide range of ports, including support for up to three external monitors*. Simply connect it via the integrated USB-C cable and instantly gain access to high-speed USB ports, Gigabit Ethernet, and a multi-monitor workspace – no drivers required.

The docking station features a combination of HDMI, DisplayPort, and VGA, making it easy to connect both modern and legacy displays. It supports up to 4K/60 Hz with a single monitor, or multiple displays simultaneously (up to 3× 1080p). An ideal solution for office setups, home workstations, and flexible working environments.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Power delivery via USB-C up to 100 W** is also supported, allowing you to power and charge your laptop or tablet at the same time – all through a single cable.

The durable housing ensures reliability for everyday use as well as on the go. The integrated 30 cm cable provides enough flexibility for comfortable connection, even when the USB-C port is not easily accessible.

The docking station is compatible with a wide range of devices, including laptops and tablets equipped with USB-C, USB4, or Thunderbolt” interfaces.

Key features:

Connect up to three external monitors
HDMI, DisplayPort, and VGA outputs for maximum compatibility
Up to 4K/60 Hz (single monitor), up to 3× 1080p with multiple displays*
4× USB-A + 1× USB-C (5 Gbps) for peripherals
Gigabit Ethernet (RJ-45) for stable network connection
Power Delivery up to 100 W**
Integrated USB-C cable (30 cm)
Plug & Play – no driver installation required
Compatible with Windows, macOS, Linux, Android, iPadOS, and ChromeOS
* macOS does not support Multi Stream Transport (MST), meaning multiple connected monitors will mirror the same image.

** Maximum Power Delivery depends on the capabilities of the connected device.
