R2,048

From cleaning floors to dusting drawers – strong suction power to do it all

Experience the power and mobility of this cordless vacuum cleaner that cleans even heavier materials with ease. The hand-held UniversalVac 18 comes with extension tubes and a floor nozzle, making it perfect for conveniently cleaning floors. A crevice nozzle makes tight spots no longer hard to reach, and the brush nozzle tackles many different kinds of surfaces swiftly, such as sofas. The vacuum's pre-filter minimises clogging in the main filter, which is easy to clean thanks to its flexible

frame. A powerful 18-volt battery delivers high suction power and cordless freedom to clean any room.

Power for ALL cordless systems from Bosch

Whether drilling, cleaning or gardening. Switch quickly and easily between different devices with the 18 V Power for ALL battery from Bosch. For even more flexibility the battery fits also in tools of other Power for ALL battery alliance partner.

Minimises clogging for extended suction power

The pre-filter covers the flat-pleated filter to increase its durability and minimise clogging. This additional protective layer can also be cleaned easily.

No surprise interruptions

The charge level indicator displays the battery charge level at all times, enabling controlled working conditions without unexpected power interruptions or charging delays.

Smart protection for a long battery lifetime

Bosch Electronic Cell Protection (ECP) prevents the lithium-ion battery from overloading, overheating, and deep discharges for a long lifetime.

Compact, lightweight, and always ready

Lithium-ion batteries are compact and light, they reduce tool weight, don’t suffer from memory effect, and remain charged regardless of storage time.

Superior grip for comfort and control

The softgrip zone provides comfortable tool handling and superior control, a useful feature in applications requiring extensive tool operation.
