Product Code: 1691745

# R8,978

Why settle for just a simple switch when you can have PoE-out, high-speed fiber uplinks, USB storage compatibility, advanced network control/monitoring, and enough processing power even for some routing or L3 HW offloading... in a single 1U device and for the best price on the market?

The CRS418-8P-8G-2S+RM combines 16 Gigabit Ethernet ports (eight of them with PoE-out!), two 10G SFP+ cages, USB 3 connectivity, and a powerful quad-core 2.2 GHz CPU in a clean, durable rackmount enclosure. Also, there’s a Gigabit management port with a direct CPU line.

This is a serious upgrade for anyone looking to replace a jungle of devices with one smart multitasker – built for real routing workloads, high-bandwidth uplinks, and clean cable management. Whether you’re powering up access points and CCTV cameras, running a fast NAS with a bunch of modern workstations, or managing the routing in your mid-sized office, CRS418 handles it all with ease – and on a budget!

CRS418-8P-8G-2S+RM is more than a switch. It’s a real multi-tasking champion that keeps your network lean and your server room clean.
Summary: Mikrotik CRS418-8P-8G-2S+RM Cloud Router/Sw. Switch layer: L2/L3. Basic switching RJ-45 Ethernet ports type: Gigabit Ethernet (10/100/1000), Basic switching RJ-45 Ethernet ports quantity: 16, Console port: RJ-45. Networking standards: IEEE 802.3af, IEEE 802.3at. Power over Ethernet (PoE). Rack mounting, Form factor: 1U | Vendor Homepage: https://mikrotik.com/product/crs418_8p_8g_2s_rm#fndtn-gallery | Switch layer: L2/L3 | Basic switching RJ-45 Ethernet ports quantity: 16 | Basic switching RJ-45 Ethernet ports type: Gigabit Ethernet (10/100/1000) | Console port: RJ-45 | SFP+ module slots quantity: 2 | USB 3.2 Gen 1 (3.1 Gen 1) Type-A ports quantity: 1 | USB Type-A ports quantity: 1 | 10G support: Yes | Networking standards: IEEE 802.3af/IEEE 802.3at | Form factor: 1U | International Protection (IP) code: IP20 |
