panels, a dedicated display platform, and an integrated ARGB light strip work together to highlight your hardware in style. Its adaptable layout strikes the perfect balance between DIY flexibility and installation ease-offering a personalized showcase for gamers and PC enthusiasts alike.

TWO COLOR OPTIONS BRILLIANT VISUALS

Choose from two elegant chassis colors: classic and modern black or clean and minimalist white, perfectly matching your personal style.

EXCEPTIONAL COMPATIBILITY & THERMAL EFFICIENCY

The Vector V100 provides up to 420mm of GPU clearance, supporting all kinds of high-end graphics cards.

- Top: Support up to 360mm radiator (height <180.5mm)
- Rear: Supports 1 x 120/140mm fan
- Side: Supports 3 x 120mm fans
- Bottom: Supports 2 x 120mm fans

270° VIEW,IMMERSIVE LIGHTING

Both the front and side panels are crafted from 4mm tempered glass, offering a clean modern aesthetic while providing an ideal showcase for internal components. Enjoy complete RGB lighting with seamless, angle-free visibility, which controlled effortlessly at the touch of a button.

CUSTOMIZABLE RGB EFFECTS

The Vector V100 includes built-in ARGB light strips with 26 LEDs. It supports a wide range of lighting modes and custom color configurations, and can be synchronized with motherboard software for a fully immersive gaming ambiance.

SUPERIOR THERMAL PERFORMANCE

In addition to accommodating large water cooling and air cooling setups, the Vector V100 features an optimized mesh panel on the side, with a perforation rate of up to 40.3%, greatly enhancing cooling efficiency.

COMPREHENSIVE FAN & RADIATOR SUPPORT

The Vector V100 chassis supports back-connect ATX and M-ATX motherboards. A forward-thinking

hardware layout that optimizes internal space and delivers cleaner cable management for a more refined build.

EFFICIENT CABLE MANAGEMENT

With a thoughtfully designed interior layout, the Vector V100 features a meticulously planned cable management system placed at the front of the secondary chamber, balancing visual appeal with practical function.

INCLUDES GPU SUPPORT BRACKET

The GB001 GPU bracket is a dedicated accessory designed to support heavy graphics cards and prevent sagging. It helps maintain a secure connection between the GPU and the motherboard while protecting the interface from strain or damage.

Accessible and Efficient

I/O Experience

The Vector V100’s side I/O panel is smartly integrated into the case’s layout, providing intuitive access to buttons and ports. This design ensures seamless operation, enhancing user interaction and work efficiency.

EXPRESS WITH STYLE

The Vector V100 features a removable hand rest that allows users to switch styles on the fly and show off their personality. Blending perfectly with the chassis design, the hand rest adds a visual highlight to the desktop setup without compromising performance for gamers seeking both customization and aesthetics.

- Mid-tower chassis built for performance visualization and immersive aesthetics
- Supports back-connect motherboards for optimized space and cleaner cable management
- Compatible with ITX, M-ATX, ATX, and E-ATX (width < 246mm) motherboard formats
- Accommodates up to 9 fans and supports up to 360mm radiators for exceptional cooling
- Pre-installed with a GPU support bracket to prevent sag and ensure stability
- Features dual 4mm tempered glass panels for 270° unobstructed visibility
- Integrated ARGB light strip with 26 LEDs, customizable and syncable with motherboard software
