Product Code: 1692663

R28,534

The Lanberg V2 rack cabinet is designed for optimal organization and protection of your equipment. With a weight limit of 1200 kg, this robust metal cabinet ensures reliability and stability for your essential devices. The inclusion of an LCD display allows for easy monitoring of conditions within the rack, while the thermostat provides automatic temperature regulation for safety. Featuring a glass door and metal rear door, this cabinet blends security with visibility, making it easy to check equipment status at a glance.

Assembly is straightforward with a complete package that includes M6 screws, wheels with brakes, ventilation panels with four fans to maintain airflow, and side locks for added security. This freestanding cabinet, compliant with multiple standards such as ETSI and DIN, is built to accommodate various setups with four vertical mounting rails, making it adaptable to your specific requirements. Whether storing servers, switches, or other networking equipment, the Lanberg V2
