Chief upgraded fixed wall mounts based on installer feedback and direct observations of installers in the field. Many new features join Fusion favorites like Centerless shift, Centris tilt and ClickConnect Latching.

New benefits included added stability, faster install, improved lateral shift, easier cable management and enhanced security.

Installer-inspired Fusion tilt mount solves top flat panel installation problems, offering flexible adjustments for large displays with a low-profile display mounting solution.

- Integrated teardrop design speeds up wall plate installation by allowing pre-installation of the bolts to the wall
- Centerless Shift provides up to 17.5" (445 mm) of post-installation lateral shift - 8.75" (222 mm) left/right of uprights - for limitless centering
