AOC: copper and glass for longer distances and the best video and audio quality

The AOC (Active Optical Cable) cable is made of copper and fiber for transferring 4K@60Hz over long distances up to 100m without data loss. It has a bandwidth of 18Gbps 4:4:4. The cable has a Kevlar protected fiber, an aluminium foiled shielding and is suitable for sensitive applications due to low RFI/EMI. The cable is supplied on a coil.

Resolution of 4K @ 60Hz

This HDMI 4K cable supports a resolution of 3840x2160 @ 60Hz. This resolution is compatible with: HDMI 2.0, HDMI 1.4a, HDMI 1.4, HDMI 1.3a and HDMI 1.3. Furthermore, the cable supports High Dynamic Range (HDR) video for expansive contrast ratio and color accuracy, HDCP 2.2, EDID, DDC, CEC, Multi-channel audio, Dolby True HD, DTS-HD Master Audio and ARC.

Ultra slim flexible cable with detachable connector for easy installation

The flexible cable is ultra slim and can be easily pulled through narrow electrical conduits and plenum spaces. Just disconnect the detachable plug from the cable and wrap the protector with pulling eye around the cable. Pull the flexible cable through a conduit and remove the protector and reconnect the detachable plug to the cable.

Optional: connect an external power supply

The AOC cable comes with a USB power cable for optionally connect an external 5V power supply. This is only required in cases when the HDMI port of the transmitter delivers insufficient power.

Additional features

It is important that the cable is connected correctly. The ACT AOC HDMI cable is marked to ensure easy identification of the source and display connector.
