Reading of S.M.A.R.T. information monitoring the condition of the connected disks. Supports spinning down of connected disks as well as an adapter.

The installation can be handled even by a layman - the disk connects to the adapter and the adapter to the computer's USB port; the rest is done automatically.

The adapter with 2.5" HDD/SSD is just enough to power on the USB bus, no need to handle the network-based feeder.

Features:

• Compatible with USB 3.0 and backward compatible with USB 2.0.
