

TP-Link TL-WPA1000 KIT PowerLine network adapter 1000 Mbit/s Ethernet LAN Wi-Fi White 2 pc(s)

Model: TL-WPA1000 KIT

Manufacturer: TP-LINK

EAN: 4897098688403

Product Code: 1693529

R2,325

Extend Wired and Wireless Network Using Electrical System

TL-WPA1000 KIT transforms your home’s existing electrical circuit into a Gigabit network, and brings wired and wireless network to anywhere there is a power outlet.

> No need for drilling or wire installation

> Network passes through walls and floors

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

> Expand coverage by adding more extenders

> Powerline adapters must be deployed in sets of two or more and be connected to the same electrical circuit

AV1000 Speeds and 300 Meters Range

Using advanced HomePlug AV2 technology, TL-WPA1000 KIT ensures stable and high-speed Wi-Fi and wired connection, providing data transmissions of up to 1000 Mbps* over the electrical wiring for ranges up to 300 meters. Stream in HD, game online and download large files without interruption thanks to reliable powerline links.

AC1200 Wi-Fi for an Advanced Online Experience

With the 802.11ac Wi-Fi technology, the TL-WPA7517 operates a dual band Wi-Fi network (simultaneous 300 Mbps on 2.4 GHz and 867 Mbps on 5 GHz) with more bandwidth and less interference, maximizing the performance of your powerline network.

One Tap for a Unified Network

One-Touch Wi-Fi Configuration

Instantly copies your network name and password from your router for easy setup.

Wi-Fi Auto-Sync

Automatically applies any setting changes across the network. Your existing Wi-Fi settings will synchronize to the new extender instantly.

Plug and Play, No Configuration Required

Connect the TL-PA7017
to your router.
Plug the TL-WPA7517 into a wall socket
in the room you need network.
Let’s enjoy the wired or wireless
internet service.

Gigabit Ethernet for Fast Wired Connections

One Gigabit Ethernet port provides reliable high-speed wired connection for a bandwidth intensive device, such as game consoles, smart TVs, STB and more, or connects multiple devices by adding a switch. Two Ethernet cables are included in the box.

Powerline Management on Your Smartphone

Manage your powerline Wi-Fi through tpPLC app from your smartphone (Android, iOS), or download new tpPLC Utility on PCs to manage the powerline network.
View real-time powerline speed
LED control (also controlled by LED On/Off button)
Guest network
