

Thrustmaster eSwap Fighting module Analog stick grips

Model: 4460275

Manufacturer: THRUSTMASTER

EAN: 3362934403829

Product Code: 1693693

R909

Assert your supremacy in the arena with FIGHTING MODULE and its two extra buttons! Take advantage of the flexibility of T-MOD modular technology to adapt the location of the module on your ESWAP gamepad according to your preferences, for optimal comfort and a gaming style that suits you best.

MASTER THE ART OF COMBOS

Simplify linking up your combos with the addition of two extra buttons specially optimized for fighting games. You now have the ability to create a 6-button configuration on your ESWAP gamepad, providing maximum flexibility to master your movements and gain a competitive advantage over your opponents.
