A unique combination portable blender and insulated tumbler, the Flip features a hybrid blade and lid that lets you blend and sip without any disassembly required. Its 11.1V USB-C-charged battery is 50% more powerful* than most portable blenders on the market, powering a high-torque motor built to handle your favorite frozen ingredients. Plus, its stainless steel cup keeps contents cold up to 24 hours, making it the perfect companion for road trips, gym sessions, and other thrilling adventures.
