

# Kingston Technology FURY Beast 8GB 3200MT/s DDR4 CL16 DIMM RGB

Model: KF432C16BB2A/8

Manufacturer: KINGSTON

EAN: 740617337549

Product Code: 1694262

## R3,743

## Kingston FURY™ Beast DDR4 RGB Memory

Kingston FURY™ Beast DDR4 RGB memory upgrades the style and performance of any system. Featuring stunning RGB lighting* to complement the sleek black heat spreader and impressive speeds of up to 3733MT/s[*]. Choose between Intel® XMP Certified & XMP-Ready profiles, Ready for AMD Ryzen™ or go for Plug N Play** automatic overclocking at 2666MT/s to get the boost you need for work and play.

## Customisable RGB lighting* with sleek styling

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Transform your system using Kingston FURY™ CTRL to choose from over a dozen lighting patterns or customise RGB effects on the sleek heat spreader.

## Kingston FURY™ Infrared Sync Technology™

Keep RGB lighting effects in sync with patented Kingston FURY Infrared Sync Technology.

## Intel® XMP Certified and XMP-Ready

Our engineers have predefined [Intel Extreme Memory Profiles] to reach speeds of up to 3733MT/s[*] to get the most out of your memory.

## Ready for AMD Ryzen™

Trust your AMD-based system to get down to business in-app or in-game with memory that’s ready for Ryzen.

## Plug N Play – Automatic overclocking up to 2666MT/s**

For a reliable and compatible upgrade, Kingston FURY Beast DDR4 RGB Plug N Play modules will auto-overclock to the highest listed speed allowed by system BIOS.
