The FRITZ!Box 6850 LTE also supports Mesh Wi-Fi, meaning your videos, music and photos seamlessly reach every corner of your home, apartment or office. How does it work? The FRITZ! devices work together as part of a single network, communicating with each other and optimizing your wireless devices and network usage.

With Mesh you can enjoy high speeds while surfing, streaming or gaming. Instead of waiting for breathtaking HD television and your favorite music, your media will wait for you.

Fast Internet – wherever you are

With fast LTE technology and a FRITZ!Box 6850 LTE, mobile Internet is convenient and can be used wherever you are. The FRITZ!Box 6850 LTE supports all common LTE frequency bands in Germany and Europe, so you can surf, stream and chat anywhere. With reliable Wi-Fi and four Gigabit LAN connections, the FRITZ!Box 6850 LTE connects your devices reliably and securely to the Internet.

Share files and enjoy phone calls

FRITZ!Box 6850 LTE offers all FRITZ!Box advantages and the familiar FRITZ!Box convenience. Connect a printer to your home network thanks to the USB port. You can also use a USB flash drive for FRITZ!NAS, the practical network storage, to share your documents and pictures with friends or family – whenever, wherever.

The FRITZ!Box 6850 LTE's integrated telephone system with a DECT base station supports up to six cordless telephones and one analogue telephone. Convenience features such as HD telephony for crystal-clear voice transmission and up to five integrated answering machines ensure telephony fun.

FRITZ!Box for safety's sake

You're always on the safe side with FRITZ!Box! The comprehensive security concept protects your communications. It undergoes constant testing and development. Thanks to the free updates, you can always rest assured.
