R1,232

Meeting Room Mount Solution

With the Iris TV mount, you can firmly mount your conference camera above or below a meeting room screen. Especially designed for the original Trust Iris 4K Video Conference Camera, it offers seamless compatibility. Secure the right camera height to maintain a professional image during any meeting.

Easy and Secure Mounting

The stable mount can be used with any TV or monitor of up to 88 inches. Thanks to the universal VESA standard, mounting is easy and secure (up to VESA 800) and all mounting materials are included.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
