Keychron M6 packs all the best features in its super ergonomic, lightweight body. With over ten customizable buttons and wireless 2.4 GHz & Bluetooth connection enabled, it offers the best performance to maximize productivity ideal for any scenario!

Dual Scrolling Modes

Equipped with two scrolling modes, the top wheel offers convenient switching between the standard middle and the infinite scroll wheel via the top button, providing you with versatile scrolling options right at your control. This flexibility enhances your productivity and creativity in various scenarios.

Standard tactile wheel

In the standard middle wheel mode, scroll with high precision at each notch for tasks like data analysis, reading posts, zooming in / out your gaming map, and so on.

Infinite Wheel - Frictionless

While switching to the infinite scroll wheel, it feels quiet, smooth, and super-fast, as if friction was non-existent, most applicable when you browse lengthy pages or notification feeds or any tedious information.

Magnetic Metal Scroll Wheel

Experience premium, smooth scrolling with a solid metal wheel that looks and feels exceptional. Meanwhile, our zero-contact magnetic metal scroll wheel delivers more frictionless, noiseless scrolling than a traditional wheel. Hall-effect sensors capture every micron of movement with flawless signal integrity, ensuring precision scrolling and immortal durability when milliseconds define victory.

Multiple Ways of Scrolling

Thumb Wheel

The thumb scroll wheel, conveniently located on the side, also serves as a horizontal scroller, providing an effortless way to breeze through wide spreadsheets in Excel or to scrub through video clips.

Tilt Wheel

In addition to standard up and down scrolling, the middle wheel offers two additional dimensions of navigation—tilt it right or left for precise, click-to-click horizontal scrolling.

One of The Strongest Mouse Sensor

M6 has the strongest, most competitive grade mouse sensor chip, PixArt 3311, PixArt 3395 and PixArt 3950, with up to 30,000 DPI, up to 750 IPS, and incomparable gripping precision. Whether for work or gaming, it offers an unparalleled experience.

Stable & Ultra-low Latency Response

2.4 GHz and Bluetooth

With cutting-edge 2.4 GHz frequency wireless connectivity, the M6 gives you extremely low latency and quick response for gaming and the office. It also offers a stable Bluetooth connection for even more variety in your wireless connectivity.

Peak Performance For Every Scenario

Precise sensors, extremely low latency wireless connectivity, and high polling rate give you the best performance for both office, gaming or even on the go.

Click In Near-Silence

Experience virtually stealth with our M6 (The All Silent Micro Switch version)! Whisper-quiet clicks from all buttons deliver undisturbed focus and razor-sharp responsiveness, ensuring peak performance precisely when silence matters most.

8000 Hz Polling Rate Option

Setting the mouse at an 8000 Hz polling rate (8K version only) can result in a high-speed signal transmittance between the mouse and the connected device. More responsive cursor movements captured with faster trigger response guarantee unparalleled performance, securing every second when it truly counts!

Featuring an 8K polling rate, the M6 ergonomic mouse achieves a latency of just 0.93ms in 2.4 GHz mode—over ten times faster than other flagship ergonomic mice. This sets a new standard for responsiveness in comfort-focused gaming and productivity.

The Ultimate Ergonomic Design

The ergonomic design of M6, featuring a pronounced curve on the top and a thumb rest on the side, conforms more closely to the contour of your palm, ensuring a comfortable grip over extended periods.

Lightweight design

M6 offers just the right amount of lightness, flexibility, and effortlessness to hold in your hand for extended use.

More Customization on The Keychron Launcher

Just click, save, and turn it off, the online Launcher web app allows for easy personalization. You can modify keys, set shortcuts, create dedicated macros, or do professional settings for LOD, polling rate, DPI, etc. Besides, it provides 5 on-board memory profiles for your access to different apps or computers.
